

LEIYA SREE M

SOFTWARE DEVELOPER

+91 960 075 2209 | leiyasree2005@gmail.com | linkedin.com/in/leiya-sree | github.com/leiya-sree | Kanyakumari, Tamil Nadu

PROFESSIONAL SUMMARY

Aspiring Software Developer with hands-on experience in Python, JavaScript, SQL, ReactJS, FastAPI, and MySQL through internships. Built an AI-powered portfolio chatbot using RAG, FastAPI, and local LLMs (Llama 3.2) to answer domain-specific queries, and gained practical knowledge through academic projects. Proficient in developing web applications, REST APIs, and database-driven solutions, with strong debugging and problem-solving skills. Eager to apply these skills in a Software Developer role, working on AI-powered and full-stack solutions.

TECHNICAL SKILLS

AI/ML: Computer Vision, Object Detection, YOLOv8, Roboflow, LangChain, LangGraph, RAG, LLMs, ChromaDB, Ollama, Llama 3.2

Languages & Backend: Python, JavaScript (ES6+), SQL, FastAPI, REST APIs, Odoo (Python, XML)

Frontend: HTML5, CSS3, Tailwind CSS, React.js

Databases: MySQL, PostgreSQL, MongoDB

Data & Tools: Power BI, Excel, Git, GitHub, VS Code, Google Colab, Postman

EDUCATION

BACHELOR OF ENGINEERING, COMPUTER SCIENCE ENGINEERING

St. Xavier's Catholic College of Engineering, Chunkankadai

2022 – 2026

CGPA: 7.9/10

HSC (12th)

Sree Ramakrishna Matriculation Higher Secondary School, Paraicode

2021 – 2022

81.50%

PROFESSIONAL EXPERIENCE

BANIBRO TECHNOLOGY – Python Developer Intern

July – August 2026

- Customizing Odoo ERP modules using Python, XML, and PostgreSQL to meet client business requirements.
- Writing backend logic and modifying views/data models to extend Odoo's functionality.

NOVITECH R&D PVT LTD – Artificial Intelligence Internship

April 2026

- Completed training in Python and Artificial Intelligence fundamentals.
- Learned the basics of Natural Language Processing (NLP) and chatbot development.
- Explored AI workflows and their real-world applications.

ENTUITE TECHNOLOGIES PVT LTD – Web Development Internship

July 2024

- Developed a Student Registration System using HTML5, CSS3, JavaScript (ES6), Python, FastAPI, and SQL.
- Built responsive registration forms and integrated them with FastAPI REST APIs for secure data processing.
- Designed and managed SQL databases for student records, ensuring accurate data storage and retrieval.

PROJECTS

AI-POWERED DEVELOPER PORTFOLIO

2026

Tech Stack: React, Tailwind CSS, JavaScript, Python, FastAPI, ChromaDB, Sentence Transformers, RAG, Ollama, Llama 3.2

- Developed a responsive portfolio website using React, Tailwind CSS, and JavaScript to showcase projects, skills, education, and experience.
- Built an AI chatbot using FastAPI, ChromaDB, Sentence Transformers, and Ollama to answer questions based on portfolio-specific knowledge.
- Implemented a RAG (Retrieval-Augmented Generation) pipeline that retrieves relevant portfolio information before generating grounded responses.
- Integrated a local Llama 3.2 3B model through Ollama, enabling AI responses without relying on paid cloud APIs.

AI-BASED ROAD QUALITY MONITORING SYSTEM

2026

Tech Stack: Python, YOLOv8, ReactJS, SQL, GPS Integration

- Developed an AI-Based Road Quality Monitoring System using YOLOv8 for real-time pothole and road defect detection.
- Integrated GPS location tracking to accurately identify and map road defect locations.
- Designed and managed a SQL database to store and organize detected road defect data.
- Built a ReactJS frontend and Python backend to visualize and report road quality data for infrastructure analysis.

AI-POWERED COLLEGE PLACEMENT PORTAL

2025

Tech Stack: FastAPI, ReactJS, MongoDB, REST API, Agentic AI, Cosine Similarity Algorithm

- Developed an AI-powered placement portal using React.js, FastAPI, MongoDB, LangGraph/LangChain, and Groq LLM to automate the campus placement process.
- Implemented Cosine Similarity for intelligent student-job matching, AI-based resume analysis, skill verification, and personalized skill gap recommendations.
- Integrated real-time email notifications, mock tests, and interview preparation features to improve placement efficiency for students and placement officers.

CERTIFICATIONS & ACTIVITIES

CERTIFICATIONS

- Microsoft Power BI Data Analyst Associate – ICT Academy

ACTIVITIES

- Active Member, Institution of Engineers (IET), SXCCE
- Active Volunteer (YRC), SXCCE
- Participated in hackathons and technical paper presentations
